DEVELOPMENT EXPERIENCE

General Assembly, NY - Web development
FEBRUARY 2016 - MAY 2016

- Attended a 3 month full-time immersive program.
- Designed, developed, and deployed multiple full stack web applications.
- Applied fundamental concepts of Object-Oriented programming and MVC frameworks.
- Contributed to peer projects by testing, reviewing, and editing code.

DEVELOPMENT SKILLS

Lanugages
- JavaScript, Ruby, HTML5, CSS3

Frameworks/Libraries
- React, Node.js, Express, jQuery, Rails

Databases
- MongoDB, SQL, PostgreSQL

Version Control
- GitHub, git

Other
- AJAX, JSON, OOP, MVC

EDUCATION

University of Delaware
Bachelor of Arts - Math/Education

PROJECTS

You-Torial
Constructed responsive full CRUD app serving as a collection of online development tutorials. Provides reviews/ratings for various tutorials to lessen time consuming searches.

GeoTube
Designed and launched an app that finds Youtube videos based on user picked locations using React, Ruby on Rails, and PosgreSQL.

From n00b to Nerd
Created, filmed, and edited web series documenting my journey to learn programming. Uploaded weekly content to YouTube as a resource for others considering bootcamps.

Streamable
Built single page web app that displays desired movie information featuring jQuery to make several Ajax calls and requests data from three API's.

Bingo!
Designed and deployed responsive single page, multi-player web app version of Bingo using HTML, CSS, and JavaScript
